The Business of Bubbles -

For over 20 years Fan Yang has taken a simple childhood activity and has taken bubbles to a whole new level. As a young boy he was fascinated by the bubbles that formed on the surface of the water. From there in a small farming village, he was determined to create bigger and better bubbles. His passion for combining science and art has been a driving factor for his success. Over the past two decades he has invented a very successful toy line "Gazillion Bubbles" which are sold everywhere, he has 16 World Records (Biggest, longest, most people and an elephant), he has been seen on Oprah, The Today, Show, Regis and Kelly, The View, Letterman as well as around the world. Since Fan Yang has set foot in NY over three years ago, his schedule has filled up quite a bit and he has enlisted the help of his family, his wife Ana (also a World Record Holder) and his older brother Jano. Together they have been entertaining audience around the world making them realize that there are no limits to one's imagination.
